

# DIY Light Weight Breather (Data Sheet)

Light weight non-woven polyester breather / bleeder

## **Description**

DIY light weight breather has a large operating capability but is typically used for applications where cures are conducted under lower pressure making it great for oven cure of pre-pregs or wet lay bagged cures. The cloth is extremely conformable and very easy to place and manipulate.

## **Benefits**

- Great breather performance in lower pressure cures
- Can still be used in suitable locations at higher pressure
- Excellent conformity + ease of placement

## **Technical Data**

Fibre type	Polyester
Colour	White
Weight (approx.)	140 g/m <sup>2</sup>
Maximum use temperature	204°C
Fire retardant	N/A
Shelf life	Unlimited when stored in original packaging at 22°C

## **Sizes**

Width
152 cm

## **Notes**

- The maximum use temperature is dependant upon the duration at maximum temperature and is process specific. DIY Composites recommends testing prior to use.
