

DIY Through Bag Connector (Data Sheet)

Through bag connector for ambient / oven / autoclave use

Description

This 2 piece vacuum valve perforate the bagging film when the top piece is inserted and threaded into the base plate. This through bag connector has a large operating window from ambient through to 260°C giving it a huge range of applications. It is also designed to be used with the DIY Male and Female vacuum connectors.

Benefits

- Flat base is easy to install under the bagging film
- Simple, cost effective and easy to use. Works with DIY Vacuum fittings range
- Screw down seal provides extra seal pressure and vacuum seal safety

Technical Data

Construction	2 pieces: base plate, threaded top piece
Material type	Aluminium base plate and carbon steel top piece
Material type of gasket	Silicone
Screw thread	1/4 inch male, NPT or BSP
Assembly style	Screw down
Service temperature	260°C

Sizes

Base plate size – 50mm

Directions for use

- Insert the base plate under the vacuum bag
- Screw the top piece into the base plate. The screwing will create an opening in the bag
- Screw the top piece all the way down into the base sealing onto the bag film
