

JUST 1

FAST CUT

PRODUCT DESCRIPTION

Fast cutting-polishing liquid compound “one step”, which combined an excellent restoring action with a supreme gloss finish. It removes either medium oxidation, marks and yellowing or medium-fine sand scratches (P1000-P1500, according to the hardness of treated resins), very fast and well, without overheating the surface. **JUST 1** is the quickest and more effective way to restore the deep shine of the surface back to a like-new condition with just one product and without waste of time and material.

PHYSICAL PROPERTIES

Colour: White
 Physical form: Liquid-creamy
 Odour: Light and pleasant
 Density: 1,570 g/ml
 Flammability: Not flammable
 Type of surface: Gelcoat, lacquer

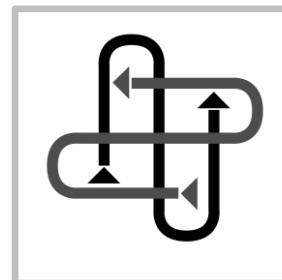

HOW TO USE

Shake before use, then apply by variable speed polisher, selecting either an anti-scratch wool pad **SL3** for a heavier cutting action or a hard white foam pad for a less aggressive and cleaner one. Pour a small quantity of compound on the polisher-pad. Let the polisher turn at low revolutions, speeding them up (800-1500 RPM) while spreading the paste with crossed movements. Pay attention at not overheating the surface. If necessary, please repeat the application more times. Eventually, wipe it off with a clean cloth.
